SUPER MALASHA

WE SELL PELLETS, CHIPS AND HOUSEHOLD STOVES
FOR A RENEWABLE ZAMBIA.
DRIED, SUPER MALASHA FROM BIOMASS WASTE

Home Energy Super Malasha from waste biomass deliver superior cookstove performance.

- **High energy content** you can count on pellet after pellet
- **Lowest amount of ash** for minimal maintenance
- **Uniform pellet size every time**, thanks to our exacting manufacturing and quality-control practices
- **Fewer fines and no foreign matter**

	Energy content ~4.8 kWh/kg	Improved burn
	Ash content <0.5%	Reduced maintenance
	Pellet size 8 mm	Uniform burn
	Fines <0.5% by weight	Cleaner burn

Compare our product specifications and you'll see why Home Energy Super Malasha is your best choice.

Three Reasons to Choose Home Energy Super Malasha

The **ECONOMICAL** Choice

- The feedstock is biomass waste, permitting a competitive price versus charcoal
- Super Pellet burn efficiently and with minimal cleanup

The **ENVIRONMENTAL** Choice

- A biomass fuel made from renewable biomass sources
- A sustainable energy source

The **QUALITY** Choice

- Very low moisture content of 5% or less means greater burning efficiency
- Consistent output of up to 4.8 kWh per kg
